Dear Mr. Feininger:

A hazardous waste inspection was made at your facility, Talley Industries of Arizona on 17 of June, 1980. During the course of this inspection information was gathered by EPA in accordance with Section 3007, Resource Conservation and Recovery Act, and a report was prepared. A copy of this report is enclosed for informational purposes only. However, conclusions and recommendations are not included as these are intended for internal Agency use.

The deficiencies or violations that may be noted in the Report are not necessarily inclusive, and any omission to cite other violations or deficiencies is not intended to nor shall be binding upon the Agency.

Comments may be provided by you concerning any aspect of the report which you believe is factually inaccurate.

Laboratory analysis of samples taken (if any) at your facility will be sent to you under separate cover at a later date.

EPA routinely provides copies of inspection reports to State agencies. Such requests will be handled according to the basic rules governing business confidentiality claims contained in 40 CFR, Part 2.

Therefore, if there is any information in the inspection report which you believe is entitled to confidential treatment, please provide documentation justifying the claim of confidentiality.
